DAILY RECORD OF EVENTS

MONDAY
15th Day 200 Lmt
Week 23

DAILY RECORD OF EVENTS

- (a) Bill & Hahn Jones 448-9249
- ① Bob began skit them to me.
 - ② Ten years ago (?) or last year (?) they protested some claims which were put in the P. Det. for the Seaford Co. area. - They have rights in Seaford Reg (Phoenix in the Morris River) but of Mud Creek. Apparently in the adjudication claim was included in the Reg for everyone along their ditch - not just the 3 properties names. She said that was not right and they protested at the other claims.
 - ③ What is the status of their protest? I said I would find out from her people? She wants to renew filing nothing has happened on it yet.
 - (b) Bob Fisher Graham - They'd upper been of Headwaters.
 - ① Don went and met me for a week or so. They again on June 30. But then the Headwaters problem will probably be muted because the water will be full.
 - ② We should still try to send out a memorandum this summer. Because of problems the year - communications will do the regulation next year and then assessments will be increased to cover his entire time; clarify the priority schedule and the governing documents. Another about priorities and priorities rights - can't fulfill operation plan and priorities often system goes in time or something like that.
 - ③ Last Phased Water DIST SYSTEM see memo dated Nov. 18, 1987 on Dist. fish. It needs to check w/ John M. on having additional plans.
 - ④ Mike Quade - Munsee White Cane - I should set a specific time to meet with the Munsee White people and see their ditch and go over the problem with them. It would be good to have Jim Olds there with me to discuss the system.
 - ⑤ Upper Seaford System - Last. 52-158 & 52-287 appears these should only be one neck not two look into it - re: W.L. #1-2203 & 2217 also

- (a) DIRECTORS' MEETING
- ① Talk to Blenda about secretary chains.
 - ② Bobbie will be charged to high speed frequencies but old Motorola radios will probably be replaced. I should have 10-12 workable channels in my radio.
 - ③ Committee Plan for FG9-90
 - Pete suggested annually. R's for every state *
 - ④ Listen to the Report for 83-84 by out now.
 - ⑤ Penn Commissioners can get stream record charts through the USGS - also some equipment could be purchased through them. Need to be careful it doesn't get it out of hand.
 - ⑥ Penn Commissioners who are asked to give deposition • Make them issue subpoena first.
 - Probably want to have an Atty. R.G. present.
 - ⑦ Open House for Rollin on June 2d at Capitol Rd.
 - (b) DELINQUENT ASSESS. NOTICES.
 - ① Allen R Bond S.
 - ② Use the same format of assessment - stamp on the notice in red!
 - ③ Allan will develop a spreadsheet that allows to print del notices on a stationary basis - all at once. Del. penalty fee will not be added until we print the del. notices.
 - ④ This year we will plan to print them on June 13. Next year coordinate with Jerry on best time and of June 1.
 - ⑤ Call Steve Gilmore (Penna. C. Commissioner) met at Lone Tree at 11:00 pm. on July 5
 - ⑥ John Macke - Headwaters
 - He talked to Dillin - we really cannot unit a distribution order telling them costs they cannot put in appropriate irrigation system if they made a change in their pt. of diversion for it as could add a charge.

Week 22

JUNE 1988

DAILY RECORD OF EVENTS

1

155th Day 213 Lmt
Week 22

- (a) Bob Fathman's problems.
- (1) Meadowville Problem.
- Frank keeps taking water out of town - says someone is going to do before this is over.
 - Solution to problem - issue a letter that only the commission regulates the dugouts and makes any needed change - makes the changes at each negotiation. At the 40th split the commission will determine the split to each field and any needed station. This is the best we can do the year - most important points is to establish order. Up a rough draft by June 14 and see Bob for details.
 - (2) after creek problems -百姓们 have a distribution system at 2:00pm in Meadowville with Bob F. and Dan Grant (R. Comm.) to discuss.
 - (3) Meadowville & Other Creek Problems. The two other creeks Big Fish & Meadow Mtn. stream set up a meeting setting a meeting on the 22nd for Sept. 22 at 2:00pm in either Hwy or Brigham City or to Dennis' office well send out notice of meeting later. See letter in General Ass't file.
 - (4) Additional items for the Office:
 - ① Bonnie, Sherry, Casting & John L.
 - ② 4 new societies changing similar to Dennis
 - ③ Laser jet printer - 2 (water use claims are going to the town jct soon)
 - ④ more water ~~to~~ terminals
 - ⑤ Replace and repair current meters
 - ⑥ Another E&M. (?)
 - ⑦ Recover John L's chipping chain. - (5) Spanish Fork R. holding fence (see 5-10e)
 - (6) fenced on drum programs, talked with E&M.
 - (7) John Mann: "It's a Mann's, it's been built through the people and come in to talk to us about it
 - (8) Apparently it was built and then the people decided he ought to get it appraised by water rights but never followed through to do so.
